## Delivering Business Analysis
Debra Paul

BCS (NBNi)

9781780174686

£34.99 | PB | 405 pp. | Sept 2019

This book takes you through the creation and management of a BA service, from setting strategy to recruiting business analysts, to continuous improvement, through to useful supporting tools and technology. Top tips, case studies and worked examples are included throughout.

Front-End Developer
Dominic Myers

BCS (NBNi)

9781780174761
£19.99 | PB | 120 pp. | May 2020

This book covers the role of front-end developer in terms of typical responsibilities, required skills and relevant tools, methods and techniques. Career progression for front-end developers is also discussed.

Information Security Management Principles 3rd ed.
**Andy Taylor et al.**

BCS (NBNi)

9781780175188

£39.99 | PB | 268 pp. | Jan 2020

A pragmatic guide to information assurance for business professionals and technical experts. The 3rd edition has been updated to reflect changes in the IT security landscape and in the BCS Certification in Information Security Management Principles.

Managing Data Quality
T. King & J. Schwarzenbach

BCS (NBNi)

9781780174594

£29.99 | PB | 150 pp. | May 2020

This book explains data quality management in practical terms, focusing on three key areas - the nature of data in enterprises, the purpose and scope of data quality management, and implementing a data quality management system, in line with ISO 8000-61.

Penetration Testing
J. Hayes et al.

BCS (NBNi)

9781780174082
£29.99 | PB | 172 pp. | Sept 2019

This essential guide for business and IT managers, developed in collaboration with CREST, explains the process of penetration testing and the benefits it brings.

Practical Test Design
I. Forgács & A. Kovács

BCS (NBNi)

9781780174723

£34.99 | PB | 344 pp. | Sept 2019

This book presents the key test design techniques, in line with ISTQB, and explains when and how to use them, including in combination, with practical, real-life examples. Automated test design methods are also explored.

Penetration Testing
Mike Sheward

BCS (NBNi)

9781780175065

£29.99 | PB | 270 pp. | Feb 2020

The book explains how to establish a strong security operations team, including hiring the right people, understanding the business the team is working to protect, knowing when to build a tool rather than buy, and crafting procedures that allow the team to respond to a wide variety of security threats.
Software Developer
Jill Clarke

BCS (NBNi)

9781780175010

£19.99 | PB | 160 pp. | May 2019

This book explains the software developer role, including the relevant skills and competencies you will need. Discussion of popular programming languages is covered, as well as tools and techniques of the trade. Career progression tips and software developer case studies round off the book.
Business Analysis - 4th Ed.
Debra Paul et al.

BCS (NBNi)

9781780175102

£39.99 | PB | 308 pp. | June 2020

This fourth edition of the bestseller contains a new chapter on business analysis as a service and includes expanded material on modelling business processes and gap analysis.
Agile Transformation
Neil Perkin

Kogan Page (GBS)

9780749497477

£19.99 | PB | 280 pp. | Oct 2019

Longlisted for CMI Management Book of the Year 2020. Traditional organizational structures and cultures are no longer fit for purpose in a digitally empowered world. This book shows why new operating models are needed, how to apply agile principles at scale and why change managers need to think big but start small.
