“Lively, thought-provoking, grounded in facts, and resolutely optimistic—these essays grapple with the big questions of our time, from the rise of Trumpism and Brexit, to gender inequality and wealth taxation.”
— Gabriel Zucman, University of California, Berkeley

A chronicle of recent events that have shaken the world, from the author of *Capital in the Twenty-First Century*.

As a correspondent for the French newspaper *Le Monde*, world-renowned economist Thomas Piketty has documented the rise and fall of Trump, the drama of Brexit, Emmanuel Macron’s ascendance to the French presidency, the unfolding of a global pandemic, and much else besides, always from the perspective of his fight for a more equitable world.

This collection brings together those articles and is prefaced by an extended introductory essay, in which Piketty argues that the time has come to support an inclusive and expansive conception of socialism as a counterweight against the hypercapitalism that defines our current economic ideology. These essays offer a first draft of history from one of the world’s leading economists and public figures, detailing the struggle against inequalities and tax evasion, in favor of a federalist Europe and a globalization more respectful of work and the environment.

Praise for *Time for Socialism*

“Thomas Piketty’s personal journey from liberalism to socialism, at a time when socialism was in retreat, is a mark of the man’s ethos but also evidence of the soul crushing inhumanity of our post-2008 hypercapitalism. Reading this volume of collected essays offers important glimpses to the parallel evolution of our political economy and of one of its most renowned scholars.”—Yanis Varoufakis, author of *Another Now* and leader of MeRA25 in Greece’s Parliament

Praise for Thomas Piketty

“Piketty [is] arguably the world’s leading expert on income and wealth inequality.”—Paul Krugman, *New York Times*

“Piketty has emerged as a rock star of the policy-intellectual world. . . . But make no mistake, his work richly deserves all the attention it is receiving.”—Lawrence H. Summers, *Democracy*

“This impressive book will rapidly become the central reference point for systematically charting trends in voting alignment across the globe.”—Mike Savage, author of *The Return of Inequality: Social Change and the Weight of the Past*

The empirical starting point for anyone who wants to understand political cleavages in the democratic world, based on a unique dataset covering fifty countries since World War II.

Who votes for whom and why? Why has growing inequality in many parts of the world not led to renewed class-based conflicts, seeming instead to have come with the emergence of new divides over identity and integration? *Political Cleavages and Social Inequalities* collects and examines a treasure trove of information on the dynamics of polarization in modern democracies to shed new light on how political movements succeed in coalescing multiple interests and identities in contemporary democracies.

It also helps us understand the conditions under which conflicts over inequality become politically salient, as well as the similarities and constraints of voters supporting ethnonationalist politicians like Narendra Modi, Jair Bolsonaro, Marine Le Pen, and Donald Trump.

Bringing together cutting-edge data and historical analysis, editors Amory Gethin, Clara Martínez-Toledano, and Thomas Piketty offer a vital resource for understanding the voting patterns of the present and the likely sources of future political conflict.
