

A Little History of Science

William Bynum

Yale University Press (John Wiley & Sons Ltd) | 9780300283211

£10.99 | Paperback / softback | 272pp. | April 2025

A lively and engaging introduction to the progress of science over the ages

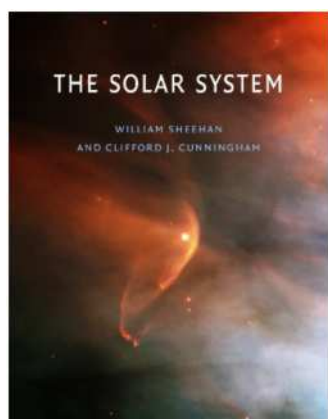

Taxi from Another Planet : Conversations with Drivers about Life in the Universe

Charles S. Cockell

Harvard University Press (John Wiley & Sons Ltd) | 9780674297227

£16.95 | Paperback / softback | 304pp. | April 2025

Taxi drivers love to talk, and when astrobiologist Charles Cockell is their passenger, they love to talk about aliens. This humorous, insightful collection gathers essays inspired by conversations with cabbies, ranging over the possible nature of alien societies, the inevitability of life, and links between environmentalism and space exploration.

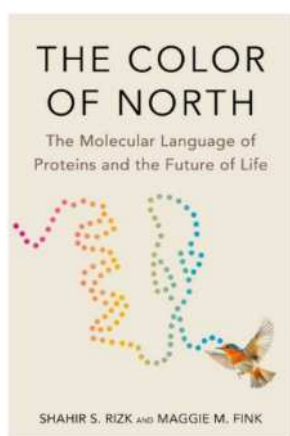

The Solar System

William Sheehan

Reaktion Books (John Wiley & Sons Ltd) | 9781836390640

£25.00 | Hardback | 248pp. | June 2025

A comprehensive, beautifully illustrated survey of the entire Solar System.

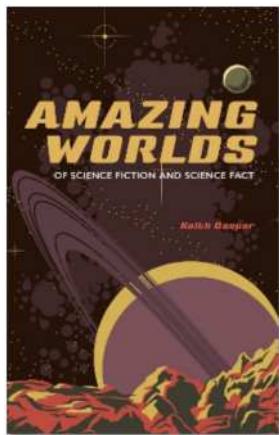

The Color of North : The Molecular Language of Proteins and the Future of Life

Shahir S. Rizk

Harvard University Press (John Wiley & Sons Ltd) | 9780674292581

£23.95 | Hardback | 288pp. | May 2025

Proteins link all life on Earth and enable its most astonishing capacities—from a firefly's glow to the navigational abilities of migrating birds to human emotional experience. The Color of North explores the curious biology and immense impact of proteins, as well as the potential of engineered proteins to treat disease and restore our planet.

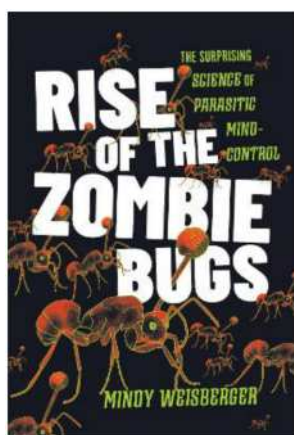

Amazing Worlds of Science Fiction and Science Fact

Keith Cooper

Reaktion Books (John Wiley & Sons Ltd) | 9781789149944

£15.00 | Hardback | 224pp. | March 2025

Surveys the realism of planets in sci-fi films like Star Wars and Dune.

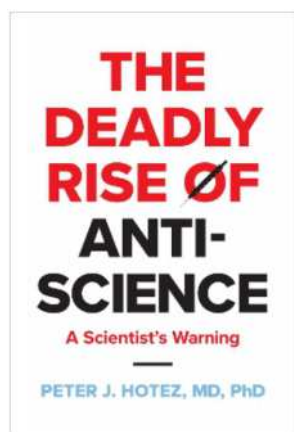

Rise of the Zombie Bugs : The Surprising Science of Parasitic Mind-Control

Mindy Weisberger

Johns Hopkins University Press (John Wiley & Sons Ltd) | 9781421451350

£25.00 | Hardback | 296pp. | April 2025

Zombies aren't just the stuff of nightmares. Explore the fascinating world of real-life insect zombification.

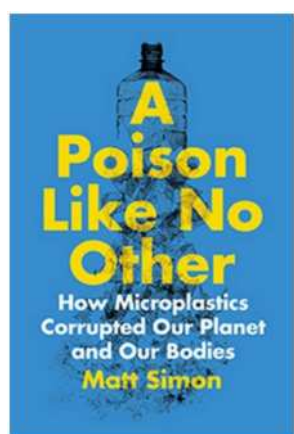

The Deadly Rise of Anti-science : A Scientist's Warning

Peter J. Hotez

Johns Hopkins University Press (John Wiley & Sons Ltd) | 9781421451671

£16.50 | Paperback / softback | 240pp. | February 2025

Shortlisted for the Non-Obvious Book Awards by the Non-Obvious Company

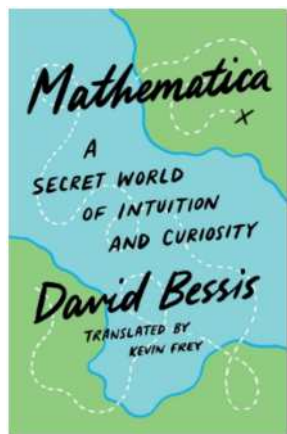

A Poison Like No Other : How Microplastics Corrupted Our Planet and Our Bodies

Matt Simon

Island Press (IPS UK) | 9781642833225

£20.00 | Paperback / softback | 256pp. | January 2025

A Poison Like No Other reveals the emerging health threat of microplastics and how ubiquitous they have become.

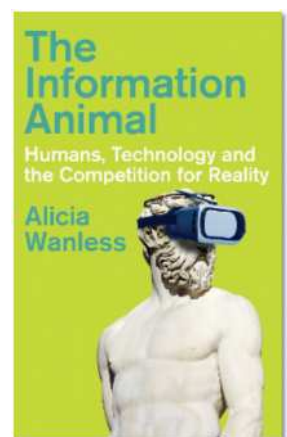

Mathematica : A Secret World of Intuition and Curiosity

David Bessis

Yale University Press (John Wiley & Sons Ltd) | 9780300283280

£12.99 | Paperback / softback| 344pp. | July 2025

A fascinating look into how the transformative joys of mathematical experience are available to everyone, not just specialists

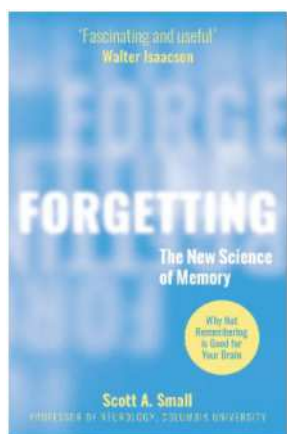

The Information Animal : Humans, Technology and the Competition for Reality

Alicia Wanless

C Hurst & Co Publishers Ltd (Macmillan Distribution (MDL)) | 9781805262886

£27.50 | Hardback| 272pp. | May 2025

Humanity has always craved, and feared, information. How should we understand our enduring, ever-changing relationships with technology and knowledge?

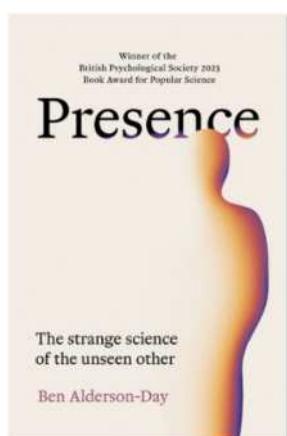

Forgetting : The New Science of Memory

Scott A. Small

Canelo (Macmillan Distribution (MDL)) | 9781804369661

£10.99 | Paperback / softback| 224pp. | May 2025

An exploration into why not remembering is good for your brain, by a leading memory expert

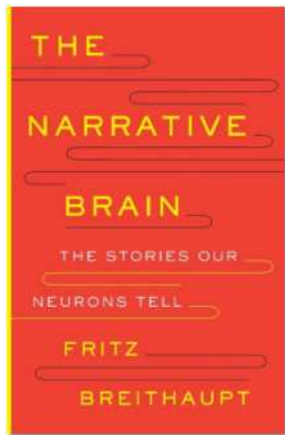

Presence : The Strange Science of the Unseen Other

Ben Alderson-Day

Manchester University Press (IPS UK) | 9781526184948

£12.99 | Paperback / softback| 304pp. | March 2025

This book charts a psychologist's journey to understand one of the most unusual experiences known to humankind: the feeling that someone or something is there when we are alone. A tour-de-force through contemporary psychology, psychiatry, neuroscience and philosophy, Presence is the story of who we carry with us, at all times, as parts of ourselves -- .

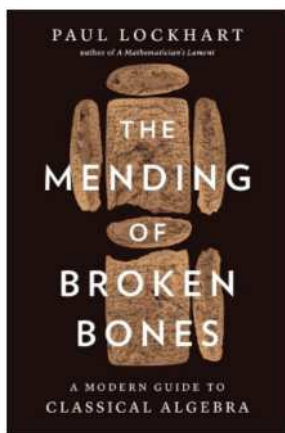

The Narrative Brain : The Stories Our Neurons Tell

Fritz Alwin Breithaupt

Yale University Press (John Wiley & Sons Ltd) | 9780300273809

£25.00 | Hardback| 296pp. | April 2025

An investigation of the emotional power of narrative that illuminates the relationship between the human brain and the stories we tell

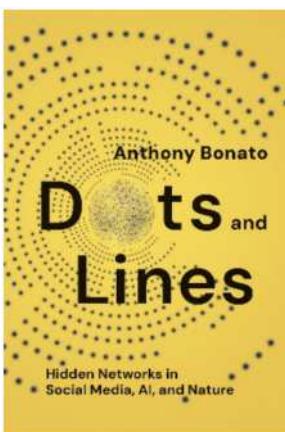

The Mending of Broken Bones : A Modern Guide to Classical Algebra

Paul Lockhart

Harvard University Press (John Wiley & Sons Ltd) | 9780674296329

£24.95 | Hardback| 400pp. | May 2025

The Mending of Broken Bones reveals that far from a set of mundane exercises, algebra is the delicate craft of untangling numerical puzzles to uncover the hidden patterns and surprising behaviors of the numbers themselves. As Paul Lockhart shows, you don't have to be a mathematician to experience the joy and creativity of mathematical discovery.

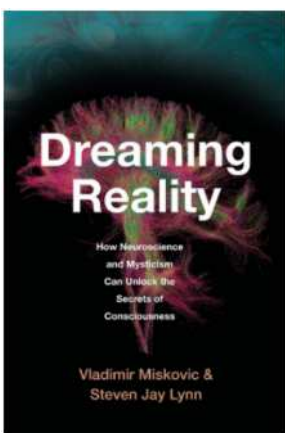

Dots and Lines : Hidden Networks in Social Media, AI, and Nature

Anthony Bonato

Johns Hopkins University Press (John Wiley & Sons Ltd) | 9781421451268

£29.00 | Hardback| 288pp. | May 2025

Can networks unlock secrets of AI or make sense of a social media mess?

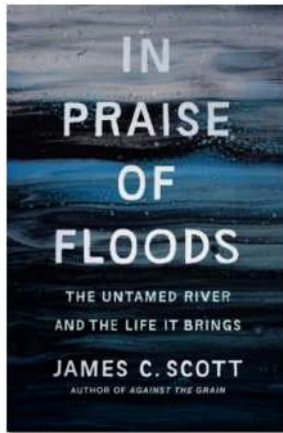

Dreaming Reality : How Neuroscience and Mysticism Can Unlock the Secrets of Consciousness

Vladimir Miskovic

Harvard University Press (John Wiley & Sons Ltd) | 9780674271869

£24.95 | Hardback| 392pp. | February 2025

Dreaming Reality looks to mystical traditions to challenge orthodoxies of brain science that model consciousness in purely physical terms. Instead of privileging the experience of waking life, the authors study visionary states, ego death, meditation, prayer, and other phenomena that bring us closer to understanding how the mind makes experience.

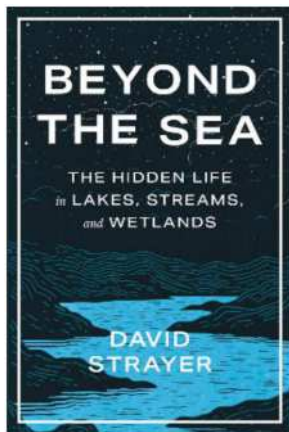

In Praise of Floods : The Untamed River and the Life It Brings

James C. Scott

Yale University Press (John Wiley & Sons Ltd) | 9780300278491

£20.00 | Hardback| 248pp. | February 2025

James C. Scott reframes rivers as alive and dynamic, revealing the consequences of treating them as resources for our profit

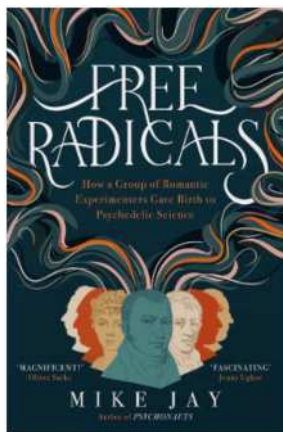

Beyond the Sea : The Hidden Life in Lakes, Streams, and Wetlands

David Strayer

Johns Hopkins University Press (John Wiley & Sons Ltd) | 9781421450070

£23.00 | Hardback| 232pp. | January 2025

An exciting foray into Earth's inland waters, the remarkable species they contain, and the conservation challenges of protecting them.

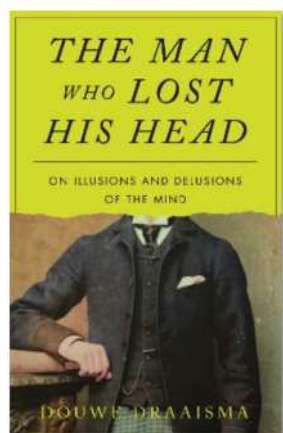

Free Radicals : How a Group of Romantic Experimenters Gave Birth to Psychedelic Science

Mike Jay

Yale University Press (John Wiley & Sons Ltd) | 9780300282610

£11.99 | Paperback / softback| 416pp. | June 2025

The story of the circle of scientists, poets and dissidents who discovered laughing gas—and forever changed our understanding of the mind

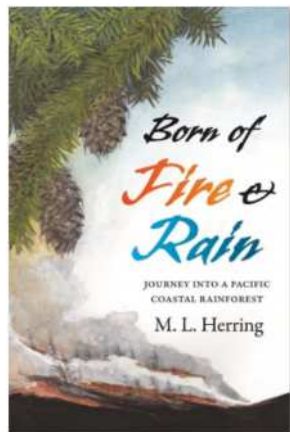

The Man Who Lost His Head : On Illusions and Delusions of the Mind

Douwe Draaisma

Reaktion Books (John Wiley & Sons Ltd) | 9781836390886

£15.99 | Hardback| 208pp. | July 2025

A captivating look at bizarre and intriguing brain disorders throughout history.

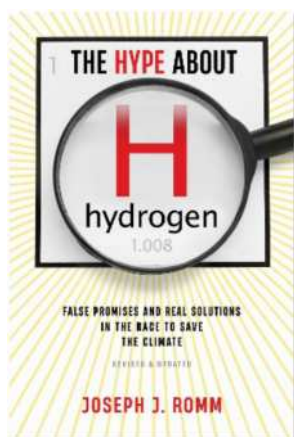

Born of Fire and Rain : Journey into a Pacific Coastal Forest

M. L. Herring

Yale University Press (John Wiley & Sons Ltd) | 9780300275421

£25.00 | Hardback| 280pp. | January 2025

Go beyond the scenery of the Pacific temperate rainforest to witness how complex ecosystems survive in a world of upheavals

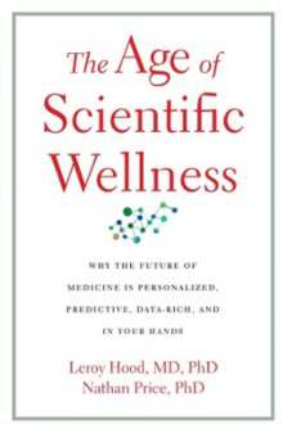

The Hype about Hydrogen, Revised Edition : False Promises and Real Solutions in the Race to Save the Climate

Joseph J Romm

Island Press (IPS UK) | 9781642834024

£28.00 | Paperback / softback| 224pp. | June 2025

Get a reality check on hydrogen's potential and explore alternative climate solutions with energy expert Joseph J. Romm.

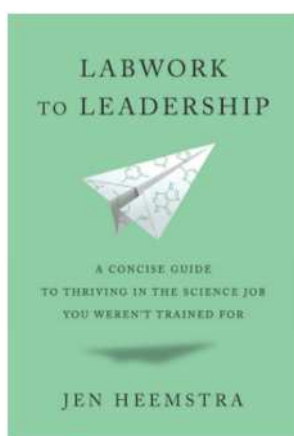

The Age of Scientific Wellness : Why the Future of Medicine Is Personalized, Predictive, Data-Rich, and in Your Hands

Leroy Hood

Harvard University Press (John Wiley & Sons Ltd) | 9780674299153

£19.95 | Paperback / softback| 352pp. | June 2025

Biotechnologist Leroy Hood and longevity researcher Nathan Price journey to the future of health. Medicine today is a hit-or-miss affair that tackles symptoms long after disease sets in. Hood and Price explore the emerging technologies that will focus health care on extending wellness, making it personal, precise, and truly preventative.

Labwork to Leadership : A Concise Guide to Thriving in the Science Job You Weren't Trained For

Jen Heemstra

Harvard University Press (John Wiley & Sons Ltd) | 9780674258631

£33.95 | Hardback| 328pp. | July 2025

After years of running a cutting-edge chemistry lab, Jen Heemstra shares hard-won advice for scientific leadership. Showing how effective management enables discovery and innovation, Labwork to Leadership teaches PIs how to set goals, foster inclusivity, and motivate a research team.
